DUYA Academy

K–21 | Academic Support

DUYA Academy serves students from kindergarten through age 21, providing them with targeted academic support through school and community partnerships. Services reinforce classroom instruction, address learning gaps, and build grade-level skills.

Individual Tutoring | 1:1

Personalized, standards-aligned instruction tailored to each student's learning needs. Tutors use assessment data to address skill gaps, reinforce classroom learning, and support academic growth.

Small Classroom Support | Teacher + DUYA Tutor

Tutors work alongside the classroom teacher to reinforce instruction, increase engagement, and support whole-group and small-group learning without removing students from the classroom.

High-Dosage Intervention | 1:8

Structured small-group intervention using evidence-based instructional practices aligned with California standards. Consistent, targeted instruction helps students strengthen foundational skills and close academic gaps.

Project-Based Learning | 1:6

Collaborative, hands-on projects connect academic learning with real-world problems and career exploration. Activities build critical thinking, communication, collaboration, and problem-solving skills while aligning with California standards.

Classroom Pull-Out Intervention | 1:3

Targeted instruction outside the classroom addresses specific academic skill gaps. Small groups allow differentiated instruction and additional practice before students return to class.

Service scope: DUYA provides supplemental academic support coordinated with its partners. Classroom support complements the classroom teacher's instruction. Services and schedules are established through partner agreements.

DUYA Institute

Ages 21 and up | Workforce Development

DUYA Institute serves adults ages 21 and up, preparing participants for work in education through educator apprenticeships, paid work experience, college partnerships, and workforce partnerships.

Educator Apprenticeship

Structured, paid pathways in four occupations: **Academic Tutor, Teacher's Assistant, Instructional Coach, and Program Coordinator.** Participants gain hands-on experience, training, and professional development in instructional practices, lesson planning, classroom management, and student engagement.

Paid Work Experience

Participants earn income while gaining practical experience supporting students and education programs. Training and professional development strengthen instructional skills, workplace readiness, and professional practice.

Federal Work-Study Programs

DUYA partners with participating colleges and universities to provide paid work opportunities for eligible college students. Placements allow students to gain education-related experience while supporting DUYA programs. Eligibility and awards are determined through the participating institution.

College Credit for Education Courses

Through college partnerships, participants can access education courses for college credit. Credit is awarded by the college according to its enrollment, course, and completion requirements.

Employment Partnerships and Subcontracting

DUYA serves as an employment partner and subcontractor for workforce development organizations, including **Public Allies and Talent Collab.** DUYA provides work placements and hands-on experience within its programs, with responsibilities defined by each partnership agreement.

Service scope: DUYA provides work experience and education workforce preparation. Colleges award academic credit; DUYA does not award college degrees or teaching credentials. Participation, compensation, placement, and course access depend on the applicable program and partner requirements.
